RULERS RESPONSIBLE.

Deliberately Planned to Expel All the Foreigners From China.

COMMISSIONER ROCKHILL'S VIEWS.

Disagreement Now on the Part of the Powers Means Much Mischievous—Karl Li Discredited—The Situation.

Shanghai, Sept. 3.—Dr. William Woodville Rockhill, special commissioner of the United States government to investigate and report on condition in China, emphasizing the importance of the harmonious action of the powers as a measure of self-defense, said:

"If the Chinese government is able to break the concert of nations and to bring about a disagreement on the part of any government in such a way as to secure any relaxation of the joint demands, all the foreigners in China may as well pack up and leave. This is the best opportunity to settle for all time the status of foreigners in China. If that matter is not settled now, the Chinese will be encouraged to persist in their present policy and the powers will have the whole trouble to thresh over again every two or three years.

"This has been a deliberately planned movement on the part of the Chinese government to expel all foreigners. The decrees printed in the Imperial Gazette prove this. The movement has been practically successful, since every foreigner in the interior has been obliged to seek refuge in the treaty ports. The Imperial government merely utilized the Boxers as convenient accessories to its schemes. The relief of Peking is merely an incident of the crisis. The really important work remains to be done."

Officials Reticent.

Washington, Sept. 3.—So far as can be ascertained there were no important developments in the Chinese situation. Officials say they have no information to make public regarding the Russian propositions regarding the withdrawal of the military forces of the powers from Peking. Mr. Adey, the acting secretary of state, has decided for the present not to make any statement as to the names of the powers which have answered or to indicate whether the replies are of an affirmative or a negative character, on the ground that publication of the attitude of the powers might embarrass the negotiations at this time. The opinion prevails, however, that none of a conclusive character have as yet come to hand.

Winter Quarters.

Tien Tsin, Aug. 29.—(Delayed.)—The Germans have formally demanded for themselves all the buildings and grounds of the camp of the United States troops, explaining that these will be needed by the large German forces soon to arrive. As the American camp lies in the German concession the demand will be complied with, and a new camp for the United States troops will be established outside the city. Orders received from Washington direct that the 5,000 American troops be divided between Peking, Tien Tsin and Taku for the winter.

Peking Shut Off.

Washington, Sept. 3.—No cablegrams from China were given to the press by any of the departments. Acting Secretary Adey was at the state department during the day, but he said that no telegrams of consequence had been received. The interruption of communication with Peking is presumably responsible in part for this, as some days have now elapsed since any word was received from Mr. Congor. Mr. Wu, the Chinese minister, still remains at Cape May, but at the legation it was said there had not been a dispatch received during the day.

Li Hung Discredited.

Shanghai, Sept. 3.—Li Hung Chang still remains in Shanghai. He is thoroughly discredited, but is intriguing to get foreigners to quarrel among themselves. He told American and English diplomats that the Russians had promised to withdraw from Peking regardless of the policy of other nations. His statement is not believed. On the contrary, it is thought probable that he is simultaneously assuring the Russians that the Americans and British have promised to withdraw.

Lima, Peru, Sept. 3.—The Peruvian senate had under consideration a proposal for preventing Chinese immigration in view of a possible exodus from China as a result of the present disturbances.

FISCAL FIGURES.

Bank Currency Increase and Coinage During Month of August.

Washington, Sept. 3.—The monthly circulation statement issued by the comptroller of the currency shows that at the close of business Aug. 31, 1900, the total circulation of national bank notes was \$324,223,810, an increase for the year of \$82,152,018, and an increase for the month of \$4,028,454. The circulation based on United States bonds was \$290,641,356, an increase for the year of \$34,468,007, and an increase for the month of \$4,193,922. The circulation secured by lawful money amounted to \$33,582,450, a decrease for the year of \$2,315,989, and an increase for the month of \$14,532.

The amount of United States bonds on deposit to secure circulating notes was \$295,790,380, and to secure public deposits \$88,840,280.

The monthly statement of the director of the mint shows that during August the total coinage at the United States mints was \$7,774,160, as follows: Gold \$5,050,000; silver \$2,536,000; minor coins \$188,160.

Brunswick Cabinet Reorganized.

Fredericton, N. B., Sept. 3.—The resignation of Hon. Henry R. Emmerson, premier of New Brunswick, and a reorganization of the cabinet were not due to a government crisis or any differences of opinion. The changes grew out of the political relations between the Canadian and provincial governments. Both are strongly liberal and work together in all campaigns. The Ottawa government is expected to dissolve the house of commons in a short time and it is understood Premier Emmerson resigns in order to strengthen the Liberals in the federal contest. In this province they held less than half a dozen seats and strong efforts will be made to gain ground. It is thought Mr. Emmerson may be a candidate for the house of commons.

Detained in Washington.

Washington, Sept. 3.—The date of President McKinley's departure for Canton has not been fixed. He had hoped to be able to leave this week, largely on account of the condition of Mrs. McKinley's health, but the important character of the Chinese negotiations necessitates his presence here at least until the present crisis is passed. At the White House everything is in readiness for the president's departure, but it is now believed he and Mrs. McKinley will not get away until the middle of the week.

Lowered All Records.

New York, Sept. 3.—The Hamburg-American line steamer Deutschland, which was reported off Sandy Hook lightship shortly before 7 a. m. lowered all the trans-Atlantic records. She left Cherbourg Aug. 26, about 9:30 p. m. Her time therefore is 5 days, 14 hours and 30 minutes, which is over three hours better time than was made by the Kaiser Wilhelm der Grosse on her fastest trip from Cherbourg.

See of Altoona.

Washington, Sept. 3.—It is learned from an official source that by reason of Archbishop Ryan's petition to Rome, supplemented with that of the Philadelphia suffrage bishops, the new see of Altoona probably will be created this month. It is believed that the Very Rev. P. J. Garvey, D. D., president of St. Charles college at Overbrook, Pa., will be the first incumbent of the diocese.

Acquitted and Assaulted.

London, Ky., Sept. 3.—Scott Stanley was tried before Judge Stanberry on a criminal charge and acquitted. On leaving the court room Stanley was attacked by Grant Hamilton, John Peters and Abe Black and received knife wounds in the back from which he will probably die. Great excitement prevailed and more trouble is feared. All the parties under arrest.

Bank Statement.

New York, Sept. 3.—The weekly bank statement shows the following changes: Surplus reserves, increases \$3,189,550, loans, decreased \$553,360, specie, increased \$3,373,200; legal tenders, increased \$340,000; deposits, increased \$2,120,600; circulation increased \$316,300. The banks now hold \$27,078,455 in excess of requirements of the 25 per cent rule.

Newspaper Man Suicides.

Dallas, Tex., Sept. 3.—Otto Burton of Atlanta, Ga., formerly employed as a writer on the Daily Constitution of that city, committed suicide in the hospital by cutting his throat with a razor. Burton had been sick a long time and became depressed and discouraged. He was 30 years of age.

Covington, Ky., Sept. 3.—On account of local grievances 150 employees of the Lovell and Buffington tobacco factory, a firm not in the trust, have struck.

A REAR-END COLLISION

With an Appalling Record of Casualties as a Direct Result.

THIRTEEN KILLED, THIRTY INJURED.

An Excursion Train and a Milk Train Badly Wrecked Near Philadelphia—Story of the Disaster and List of Victims.

Philadelphia, Sept. 3.—Thirteen persons killed and over 30 others injured is the appalling record of a rear-end collision between an excursion train and a milk train on the Bethlehem branch of the Philadelphia and Reading railway at Hatfield, Pa., 27 miles north of this city.

The killed: Miss Annie Sherry, 21; Robert Miller, 21; Richard Bachman, 40; Ira Ehret, 20; William Ehret, Joseph Mordaunt, 22, all of South Bethlehem; Charles McNoggle, Allentown; Thomas Day, Allentown; Miss Mamie Kaelln, 14, Telford; Geoffrey Kaelln; William Blackburn, Ambler; Harold Landis, Hatfield; — Ackerman, Philadelphia. Some of the injured may die.

The wrecked train consisted of 10 day coaches, and was the first section of a large excursion made up of people from Bethlehem, Allentown and surrounding towns to Atlantic City. This section carried only those persons who lived in Bethlehem and Allentown, and left the Union depot in Bethlehem at 6:05 a. m., exactly 35 minutes behind the milk train. The latter train consisted of two milk cars and two passenger coaches, and had stopped at every station on the road from Bethlehem en route to Philadelphia. At 6:54 the milk train drew up at the milk platform at Hatfield, and in less than two minutes the special excursion train, running at the rate of 35 miles an hour, crashed into the rear of the milk train. The locomotive ploughed through the two passenger coaches and crushed them as if they were eggshells. The milk car immediately in front was also badly wrecked. Four persons, Geoffrey Kaelln, his daughter Mamie, Harold Landis and William Blackburn, on the passenger car of the milk train, were almost instantly killed. Fortunately there were very few persons on this train.

The excursion train was a picture of indescribable horror. The locomotive was a mass of bent and broken iron and firmly held the bodies of its engineer and fireman beneath its great weight. Behind the engine, six of the 10 cars were also a mass of wreckage. The first car was broken in twain, and the other five cars were thrown on their sides, completely demolished. Nine persons were killed in the first two cars, and the others in those coaches were badly maimed.

As soon as the crash came a terrible cry rose from the smashed cars, and those who had not been injured quickly crawled or jumped from the cars and went to the assistance of the injured. Many were pinned down by wreckage and had to be freed by the liberal use of axes. With three or four exceptions the dead were instantly killed, the others dying on their way to the hospitals. All the injured were first taken to a shed at the Hatfield station and the dead were removed to a barn. Messengers were sent to the nearby villages for physicians, and a relief train was telegraphed for from Bethlehem. With 15 doctors and a half dozen nurses a special train was sent from Bethlehem, but before it reached the scene of the wreck it was signalled to return to Bethlehem, as a special carrying nearly all the injured had started for that place. On the run from Hatfield to the hospital three of the injured died. Great trouble was experienced in keeping the relatives away from the injured on the train, so that the doctors gathered from near Hatfield could attend to the wounded.

The special train arrived at Bethlehem at 11:30 and was met by fully 5,000 persons, all clamoring to get a bit of news of the wreck or trying to learn whether loved ones were among the victims. The news of the wreck had reached Bethlehem at 8 o'clock, and spread like wildfire. All the policemen of the town were gathered at the station, and it was with great difficulty that the injured were removed to the waiting ambulances and other vehicles, which conveyed them to the hospitals. All during the day people from Allentown, Catasqua and other places came pouring into Bethlehem, and confusion reigned throughout the day. The second section of the excursion, made up of persons from towns other than Bethlehem and Allentown, left soon after the first section, but was flagged before it reached Hatfield.

As it could not get through on account of the blocked tracks, it was returned to Bethlehem, and there was great rejoicing at the narrow escape of its occupants from the catastrophe.

Into an Open Switch.

Washington, Sept. 3.—An accident on the Chesapeake Beach railway at Chesapeake Junction, Md., caused the death of one man and the probably fatal injury of two others, all train hands, and a woman passenger. The accident was caused by an excursion train returning from Chesapeake Beach running into an open switch and colliding with empty cars standing on the track. Gilbert, the conductor of the excursion train, a resident of this city, was killed.

PREPARING FOR FLIGHT.

Humor Afloat About Presidents Kruger and Steyn.

Pretoria, Sept. 3.—Mr. Kruger and Mr. Steyn have gone to Barberton. It is believed that they are preparing for flight. The general opinion is the war is now very near the end, but should the Boers construct strongholds on the bush, on the veldt or elsewhere, and begin a system of raids, the British would require further large supplies of horses.

General Buller moved 14 miles northward along the Lydenburg road, and crossed Crocodile river to Badfontein. He found the Boers concentrating in the Crocodile mountains. A force of Boers under Commandant Theron broke through the British lines and captured and burned a supply train at Kilip river station, taking 35 prisoners. Brabant's horse proceeded thither, recapturing all the prisoners, and drove the Boers into the hills. Colonel Plumer dispersed a small commando under Commandant Pretorius east of Pinnars river, capturing 26 Boers, a number of wagons and a quantity of cattle and rifles.

It is reported that Lord Roberts has issued a proclamation formally annexing the Transvaal to the dominions of the British crown. General Christian Dewet is reported to have appeared again along the railway near Winburg road.

Joint Opening.

Bowling Green, Ky., Sept. 3.—This is the biggest day in the history of this city. Hon. John W. Yerkes, Republican nominee for governor, made his first speech of the canvass here, and Hon. Frank Peake of Shelbyville opened the campaign for the Democrats. Excursions were run on the railroad and boat lines. Yerkes at noon was met by a procession and five bands. He spoke in the park to a great crowd of people. Judge Thomas W. Owsley of this city presided. Hon. J. McKenzie Moss, the fusion nominee for congress in this district, made the introductory speech. Mr. Peake spoke at the courthouse to an immense course.

Forced to Take the Steerage.

Berlin, Sept. 3.—Owing to the unusually heavy westward passenger traffic, as well as to the interruption in sailings owing to the Hoboken disaster, and to the chartering of passenger steamers by the German government for use in Chinese waters, many American citizens have recently been compelled to take steerage passage in returning to the United States. The physicians of the North German Lloyd Steamship company have insisted upon vaccinating all these to meet the requirements of the United States laws, and the Americans have appealed to Washington.

A Fruitless Search.

Muncie, Ind., Sept. 3.—The Muncie police came home from the week's search for the Keating brothers, wanted for the killing of Allen Robinson. They searched the residence of Charles Duffey, a brother-in-law, near Lobloilly swamp, in Jay county, and found Charles Keating's bloody trousers and the bloodstained knife supposed to have been used by Keating on Robinson's neck. The young man had changed clothes, taking a suit belonging to John Street, a relative, at the Duffey home.

The Letter-Carriers.

Detroit, Sept. 3.—Some 400 members of the National Association of Letter-carriers have arrived to attend the meeting of the association to be held this week. The early arrivals came quite largely from the east and middle west. The presence of the letter-carriers resulted in two Labor day parades. Important matters will be discussed by the mail men, among them being increase of salaries, uniform rates and pensions for infirm and disabled carriers.

Cleveland, Sept. 3.—The 600 longshoremen who went on strike at the Erie railway ore docks several days ago, returned to work pending a settlement of their grievances by arbitration.

TALKED TO TOILERS.

Colonel Bryan and Theodore Roosevelt in a Labor Day Demonstration.

IMMENSE CROWD OUT TO HEAR THEM.

Ticket to Be Named by the New York Republican and an Outline of the Platform—Political Intelligence.

Chicago, Sept. 3.—The feature of the Labor day demonstration here was the gigantic meeting of workmen held at Electric park immediately after the big parade. Colonel William J. Bryan, Democratic candidate for president, and Hon. Theodore Roosevelt, Republican candidate for vice president, were the principal speakers at this gathering. Both gentlemen were tendered vociferous ovations. Colonel Roosevelt spoke first, followed immediately by Mr. Bryan, each consuming an hour's time. During the delivery of the addresses the crowds were very demonstrative and enthusiastic, generously applauding the telling points made by each. Mr. Roosevelt paid tribute to labor and labor organizations, holding the latter to be a good thing when conducted with "intelligence, foresight and sanity." The idler, whether rich or poor, he said, was a menace to the community; the rich must not only work for themselves, but for others as well.

The speaker closed by saying that the success of the law for the taxation of franchises, recently enacted by New York state, offers a striking contrast to the complete breakdown of the species of crude and violent anti-trust legislation which has been so often attempted of late.

At 3 p. m. Mr. Bryan arose to speak and was welcomed with a cyclone of cheers.

New York Republicans.

Saratoga, Sept. 3.—The consensus of opinion here makes up the following Republican state ticket to be nominated by the convention which will meet here Tuesday: For governor, Benjamin B. Odell, Jr., of Orange; lieutenant governor, Timothy L. Woodruff of Kings; comptroller, William J. Morgan of Erie; secretary of state, John T. McDonough of Albany; state engineer, Edward A. Bond of Jefferson; attorney general, John C. Davies of Oneida; state treasurer, J. Jaekel of Cayuga. The resolutions will indorse strongly the administration of President McKinley, vigorously upholding the continuance of the gold standard, together with a strong indorsement of the government policy in Cuba and Porto Rico and a statement that the Philippines are ours by every right, and that if it can be called expansion, then the party in New York state is for expansion.

RETURN OF VOLUNTEERS.

Homeward Movement For Troops In Philippines In November.

Washington, Sept. 3.—So far as the war department has made any plans for the return of the volunteer troops from the Philippines, it is intended to commence the homeward movement about the middle of November.

No orders have yet been issued on the subject, but it will take practically all of the transport service at the command of the department to accomplish the return of the 31,000 volunteers between the date named and June 30 of next year, when their term of service expires by operation of the law.

It is the intention of the department to return the organizations in the same relative order as they were sent to the islands, thus equalizing as near as possible their terms of foreign service.

Feulana Meet.

Cincinnati, Sept. 3.—The old guard of the Fenian Brotherhood was addressed here by P. J. Corcoran, Edward O. M. Coudon and Captain George Sweeney. Very bitter resolutions were adopted against the present alleged American entanglement in foreign affairs, especially any alliance with England and any violation of the principle of consent of the governed. The resolutions denounce the course of England in South Africa and condemn the sending of prisoners of war to Ceylon. "We are likewise opposed to any association with any power whose conduct is not consistent with American theories and humanity."

Vacations at Fall River.

Fall River, Mass., Sept. 3.—Forty-four cotton mills, operated by 14 corporations, shut down until Sept. 10. These mills employ 17,500 hands. About three-quarters of the corporations will have completed a month's curtailment at that date in accordance with the general agreement.

THERE may be trouble in Pittsburgh over a cut just announced by the Monongahela River Consolidated Coal and Coke Company of 25 cents a day in wages of all caulkers. This is the Pittsburgh coal trust. The coal barons don't seem to be easily satisfied. They are not only robbing consumers by charging more than ever for coal, but are now cutting the wages of their employees. Mr. Hanna, whose brother is interested in this coal combine, insists that trusts are good things.

CHICAGO TRIBUNE'S FAKE.

Published a List of Papers Which It Claimed Had Deserted the Cause of Bryan.

OMAHA, NEB., August 29.—Sunday's Chicago Tribune printed a list of eighteen newspapers that supported Bryan in 1896 and now supporting McKinley. The Omaha World-Herald made an investigation by wire of the Tribune list and discovered that only three in the list were correct. Of the Tribune list three papers that supported Bryan in 1896 are now supporting McKinley. They are the Denver Times, Denver Post and Wellston (Ohio) Sentinel, the latter being a weekly paper.

The Worcester (Mass.) Post, that did not support Bryan earnestly in 1896 is heartily supporting him now. The Galveston Globe is a pure fake, no such paper existing. The investigation disclosed, however, that the only change at Galveston is in Bryan's favor. The Galveston Tribune did not support Bryan in 1896, but is now supporting him. The Raleigh News and Observer supported Bryan in 1896 and is supporting him now. Of the other papers mentioned by the Tribune as having changed from Bryan to McKinley every one of them opposed Bryan in 1896, consequently there could be no change.

The investigation also discloses that at Louisville, Ky., instead of being two changes against Bryan, there are two changes in his favor. In 1896 all four of Louisville's papers opposed Bryan. This year two of them—the Courier-Journal and Times—are supporting him.

The investigation shows that the three papers, which deserted Bryan have an aggregate circulation of 52,750. To offset this it is shown that there are ten recruits to Bryan, with an aggregate circulation of 937,553. The recruits are as follows:

New York World, Louisville Courier-Journal, Louisville Times, Springfield (Mass.) Republican, Baltimore Sun, Galveston (Texas) Tribune, Worcester (Mass.) Post, Cleveland Plain Dealer, Washington Times and Chicago Chronicle.

The World-Herald prints telegrams from the papers named by the Chicago Tribune, showing the Tribune's list to be false.

ENCOURAGING REPORTS.

Offer to Bet Kehoe Will Have 1,000 Majority in Harrison Remains Untaken.

[Mt. Olivet Advance.]

Hon. Jas. N. Kehoe, the Democratic nominee for Congress, will be a winner, and that, too, by a large majority. Robertson will give him an increased majority, while Harrison, Nicholas, Mason and Fleming will follow suit.

A gentleman from Harrison who was attending court here last week offered to bet that Kehoe's majority in his county would not miss the 1,000 mark by twenty-five votes. He could find no takers.

The reports from other counties are as encouraging as the ones above mentioned. The Democratic nominee will get a "Tom Paynter majority" in the Ninth district this year.

COLLIER'S ACCOUNTS.

The Late Adjutant General Spent \$600 For Onions. \$365 For Whisky and Bought 58,000 Pounds of Rice.

FRANKFORT, Ky., Aug. 28.—Auditor Gus G. Coulter has discovered some interesting items in the itemized bill which Adj. Gen. Collier, of the Taylor administration, turned in to account for the \$10,000 which he spent during the troublous times of the last session of the Legislature.

One of the items in Gen. Collier's account is \$600 for onions. Mr. Coulter and some of his assistants have figured out this item, and find that at last winter's price Mr. Coulter must have bought 900 bushels of onions. There are 210 average-sized onions to a bushel, and there were forty soldiers here for forty days and 100 here for sixty days. Therefore, each soldier during the first forty days must have eaten four and a half onions, while during the last sixty days there were eighteen onions for each soldier.

Another item is three and a half tons of rice, about 58,000 pounds. An experienced cook has informed Auditor Coulter that three and a half tons of rice, when boiled, would dam the Ohio river or fill the custom house in Louisville about three times.

There is also an item of 4,000 sides of bacon, or ten sides a day for the 400 soldiers during the first forty days, and forty sides a day during the last sixty days. This would be nearly half a side a bacon a day for each soldier during the last sixty days.

Besides, there was an item of \$365 worth of whisky, in addition to numerous "prescriptions" of \$2.50 each.

THE APPLE CROP

Larger in Quantity and Better in Quality Than in Many Years.

[New York Tribune.]

According to the National Apple Shippers' Association, the crop of apples this year in the United States, Canada and Nova Scotia "will be the largest of any crop in the history of the country." While the drought has affected the yield in Missouri and many apples have dropped prematurely in this State and the States adjoining on the east, the crop, it is estimated will exceed the record crop of 1896, which was 70,000,000 barrels, by from 10,000,000 to 30,000,000 barrels. This year's crop in North America, it is believed, will be from 80,000,000 to 100,000,000 barrels. Fourteen States have bearing apple trees numbering more than 3,000,000 each. The reports from these States are favorable, and in New England, New York and Pennsylvania the yield is reported to be heavy. There will be large numbers of apples on the Pacific Coast and in Canada and Nova Scotia, also. There is a market for apples abroad, and it is said that Great Britain, France and Germany are prepared to take some of the surplus. The quality is good, according to the reports, as well as the quantity.

The Contemplation of Style,

The style that is in our Clothing is a pleasure. It is absolutely correct. Each garment is dressy, well made and perfectly finished. Men of every size can be fitted. Pocket books of any size can be suited. The material used is in the very latest colorings and patterns and many of the designs are exclusive. Don't think the goods are not tip top because the prices are very low.

—Mr. and Mrs. Eneas Myall, Jr., have returned after a pleasant visit to Prof. and Mrs. C. E. Blake, of Chicago.

Golf Cloths..

The woman who carries the damp heavy train of a long gown on a rainy day surely envies her wise light-footed sister in a short skirt. But women who wear short skirts on rainy days want to continue the comfort when it is dry—and they do. Thousands this year—millions next year. We have found a splendid line of Golf Cloths for making short skirts—a beautiful quality with the outside face in the popular shades of dark and light gray, dark blue, brown and tan, with a dozen attractive designs of plaid backs. \$1.50 and \$2 a yard.

Muslin Underwear.

Interest points two ways among these pretty garments to-day. It is an offering to attract good taste while it tempts the thrifty.

Nightgowns.

50 Cents. Four styles. Neck and sleeves trimmed with ruffle, front finished with embroidery.

75 Cents. Fine muslin. Yoke of tucks and insertions, ruffled finish with pretty buttons and generous hem.

\$1.00. Looks like a \$1.50 quality. Pretty enough for morning wear in one's room. Several different styles.

Petticoats.

75 Cents. Carefully cut with close fitting hips, deep ruffle neatly trimmed with lace or Hamburg.

\$1.00. Fine quality, will take and hold starch perfectly. Odd conceits in trimming, each prettier than the other.

\$1.25. Something more, much more, than the usual \$1.25 petticoat. Dainty enough to wear under the sheerest lawn dress.

BURGLARS ABROAD

Saturday Night and Sunday Night—Three Residences Raided—Diamond Ring Taken.

The residence of Mr. J. W. Foxworthy on East Third street was entered by burglars early Saturday night and the rooms ransacked. The only article missing, however, is a diamond ring valued at \$150.

Mr. and Mrs. Foxworthy were spending the evening with Mr. and Mrs. B. W. Goodman, and returned about 10 o'clock. They at once reported the theft to the police.

The thieves entered by cutting a slit out of a rear shutter and opening it and raising the window. A gold watch, a silver watch, an opal ring and a lot of silverware were left undisturbed. The job is credited to home talent, but the police have not made any arrests.

The residence of Editor Thomas A. Davis on West Second street was also broken into Saturday night while the family were up town. The rooms were ransacked, but nothing of value is missing.

Last night, between 7 and 8:30 o'clock, while Mr. M. B. Clark and family were at church, their residence, adjoining Chief of Police Donovan's home on East Fourth street, was entered by thieves.

The burglars unlatched the screen door, and then used a pair of nippers in turning the key of the inner door, the key having been left on the inside of the lock. Bureau drawers, valises and trunks were ransacked, but nothing taken. The thieves evidently wanted cash only.

Officers are at work on these cases. Citizens should be on the watch while this burglarious raid is in progress.

Maysville Boys in Trouble.

The Enquirer says Arthur Greggson and John Shepherd, two young men who claim to hail from Maysville, are under arrest at Newport charged with the theft of nearly a wagon load of barge rope from Crane & Company. The rope was stolen Tuesday night, but no attempt was made to dispose of it until Wednesday night, when they came to Junk Dealer Spechter's place and offered to sell it at such a low price that the latter's suspicions were aroused. Spechter notified the police and Officer Creighton made the arrest when Shepherd and Greggson came back. The rope was almost new and there was at least 250 feet of it.

THE BULLETIN is in need of a boy to deliver papers on the West End route and work in the office. One acquainted with the residents of the First, Second and Third wards, and who can read and write, may secure employment by applying at once to this office.

Trusts

Generally control the markets, local and foreign, which causes the consumer to bear the burden, for there is no competition. The firm who would secure the exclusive sale of any article of merchandise only do it so they can try and force the people to pay their price, which is higher as a rule, especially when the same article can't be bought in the community. We claim to be true friends of the people, and go into market, cash in hand, buying of the

Best Tailor-Made Clothing

possible, for all classes; also Shirts, Underwear, Neckwear, Suspenders, Hats, Caps, Trunks and Valises. We claim that our business is closely watched as to expense. Therefore we do not care who handles the same merchandise as we do, even if it's of the same make; we would rather that they did, for we do and can sell for a closer margin of profit (and they know it; that's one reason they want to be exclusive) than any other firm in Maysville. We might mention that we are in a position to get any article under the sun in the way of Clothing, Hats, or Furnishings for man or boy, and will continue as ever to be the true friends of the people by selling good, clean, first-class merchandise of any make, a shade cheaper than those who would control our community.

LARGEST FOR MANY YEARS

Was the Attendance at the Germantown Fair Last Saturday—List of the Successful Exhibitors.

The attendance at the Germantown fair Saturday was beyond expectations. The crowd was estimated at 12,000. The display of stock was far ahead of any previous day.

The obliging Treasurer of the company, Mr. J. E. Molloy, had the misfortune to lose a pocket-book containing about \$70.

Following is a list of the successful exhibitors Saturday:

Best model horse, mare or gelding, \$10; Stroude Bros., Mason County.
Best pair roadster horses, regardless of sex or owner, \$15; Dr. J. T. Ware, Cynthia.
Best pair harness mares or geldings, matched in color, size and action, regardless of ownership, \$15; S. C. Carpenter, Millersburg.
Best walking horse, \$5; S. C. Carpenter, Millersburg.
Best roadster stallion, \$10; L. T. Hendrickson, Ripley.
Best roadster mare, \$10; Dr. J. T. Ware, Cynthia.
Best roadster gelding, \$10; C. E. Biggers, Washington.
Best boy rider, under 11 years of age, boys suit not to exceed in value \$10; James Poe, Bracken.
Best colt, under 1 year, regardless of sex, premium by the Union Mercantile Co., Germantown, value \$10; Burgess & Pickett, Mason County.
Best roadster, horse, mare or gelding, \$30; L. T. Hendrickson, Ripley.
Best family buggy mare or gelding, \$5; J. R. Struve, Robertson County.
Best New York saddle or park mare or gelding, \$10; S. C. Carpenter, Millersburg.
Fastest runner, once around the inner ring, for boys twelve years and under, suit, value \$; Evan Galbraith, Bridgeville, Ky.

Best saddle gelding, four years and over, premium by Hechinger & Co., Oddfellows' Clothing Hall, overcoat, value \$15; J. R. Struve, Mt. Olivet.
Best pair harness horses, regardless of color, sex or owner, \$30; S. C. Carpenter, Millersburg.
Best equestrian, hat, value, \$5; cyanosolation purse for all horses that have not taken a premium during the fair, \$5; Dr. J. T. Ware, Cynthia.

Gloomy Outlook for Tobacco Growers.

Colonel William D. Spalding, the well known tobacco man of Covington, and who has long been connected with the warehouses at Cincinnati, has been spending a few days in this city and county, taking a look at the crop in the field. Speaking of the growing crop he says the country buyers state that about five cents a pound is the best they expect to pay for it.

We sold breakfast bacon at 10c. per pound last Saturday and best baking soda at 1c. a pound.

H. E. LANGDON & Co.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on J. J. Wood & Son, druggists, and get a trial bottle free. Regular size 50 cents and \$1. Every bottle guaranteed, or price refunded.

Hot! hotter!! hottest!!!

It has not been so torrid for a hundred years. People are dying all over the country. The mercury ranges from 95 to 100 degrees in the shade, and the end is not yet. The breeze comes over the fields, through the groves and up the dry street like the breath of a furnace. Life is a burden and there is no rest night or day. Every time we pick up a paper we see how great is the suffering and prostration everywhere.

The great question with us all is how shall we manage to live through this torrid spell and how shall we treat those who happen to fall under our care. Many are struck down suddenly without a moment's warning and expire so quickly that a doctor cannot be summoned. The patient is generally seized with a pain in his head and a feeling of fullness and oppression in the region of his stomach—perhaps nausea and vomiting. There is also present vertigo, dimness of vision, insensibility and great prostration.

There are two separate and distinct types of sun stroke. Now right here it is the greatest importance that you diagnose what kind of a case you are dealing with. If you have a person suffering from heat exhaustion you will find him in an unnatural sleep from which you cannot arouse him. His face is pale, extremities cold, pulse weak, fluttering, perhaps scarcely perceptible. The vital powers are prostrated—the forces carrying on the circulation are giving away and death may soon take place by syncope. Be quick, there is no time to lose! Give him a tablespoon of good brandy, repeating the dose every fifteen minutes until there is an improvement of the pulse. Wrap a towel soaked in hot water around the head. Apply a strong mustard plaster the whole extent of the spine and artificial heat to the extremities. Keep this up and generally you will soon see your labor rewarded by signs of returning consciousness.

Now we come to speak of the second class of cases. A man falls over in the street as quickly as if struck by lightning. He lies in a comatose state. His face is flushed, the veins stand out like dark blue cords on his forehead, his pulse is like a metal rod beneath your touch and his body is hot all over. His breathing is loud and stertorous, and partial paralysis may be present. It is a case of pure apoplexy. The brain is overloaded and there may be rupture of a blood vessel any moment. What will you do? Strip off all the clothes and give him a douche of ice-water. He will groan and writhe in great distress, but give it to him, do not be afraid of giving him too much. *Sock it to him!* It is your sheet anchor, but do not if you want to save his life give him a drop of liquor.

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

The tobacco market showed considerable strength for the common sorts of lugs, trash and top leaf. These sorts show little or no fluctuations, and by comparison are the highest sold tobaccos offering. The better grades were, as a rule, in fairly active request at prices current for the previous week. Red fillers, selling between \$10 and \$12, appear to be in a rather firm position and seldom fail to reach the price established for them. This is a most useful grade of tobacco, the supply of it is none too abundant, and there should be no dip in the valuation so long as there is a hoghead of it for sale.

The grade above common for lugs and trash shows no especial activity, and by comparison appears to be a shade lower. The supply of these, however, appears to be rather plentiful, still those selling between \$6 and \$8 seem to be the cheapest tobacco on the breaks.

Good, clear fillers, that sold in June at from 11c. to 20c. are still weak in the bidding, but the inquiry for these good to fine sorts is improving, as most of the buyers do not drop out of the bidding so readily as a week ago, when many of them quit the contest with reluctance. The best grades of fillers of the 1899 crop are absolutely good, better ones cannot be produced.

The harvesting of the growing crop is now fairly under way; the next two weeks will see the major portion of it in the barns. Dry, cool weather for the next two or three weeks should help to make a good crop of tobacco. With the rain we have had during the last three or four weeks it is in many respects hardly possible to get as good tobacco out of it as is shown in the crop of 1899.

A Gentleman of Considerable Experience

Tells us that the fall of the year is the best time to do one's painting. Work done now will last longer, look fresher and give better service than if exposed to the hot summer sun. Paint spread on in the fall will not peel off and blister like it sometimes does when put on during the hot months. Therefore, for economical reasons, some folks are preparing to do their painting now. We desire to call attention to the fact that we carry a full line of

PAINTS PREPARED READY FOR USE!

These are the United States Paint Company's goods, and we carry a full line, comprising twenty-one beautiful and durable shades, put up in pint, quart, half-gallon and one gallon cans, five gallon buckets, half barrels and barrels. This Paint is not a cheap substitute for white lead, but a mixture of carbonate of lead and zinc combined with pure linseed oil on such a scientific principle as to resist the action of the elements. Color cards showing specimens of the popular shades cheerfully furnished.
